

How to play Power Chords (A5 → G5)

Main chords to learn in key of C ~~(A major)~~

0 = open string (play with no fingers down)
 x = don't strum/play
 1, 2, 3, 4 = finger number.

If you play these 6 chords (or a selection) in any order it will sound good - lots of songs just repeat 3 or 4 of these chords in a loop for the whole song.
